Portfolio — CodeChef — LeetCode — GFG

Education

B.Tech in Information Technology

Pune Institute of Computer Technology (PICT)

Activities: Web Team Member, PCSB Club

2024 – 2028

CGPA: 9.37

Higher Secondary Certificate (HSC)

MRMV Junior College of Science, Manmad

2024

Percentage: 95.00

Technical Skills

Frontend: React.js, Next.js, TypeScript, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Databases: MongoDB, MySQL, PostgreSQL

Languages: C, C++, Java, JavaScript, Python, SQL

Tools & Platforms: Git, GitHub, Linux, Docker, Postman, MongoDB Atlas, Vercel, Render

Core Concepts: DSA, OOP, DBMS, Operating Systems, Computer Networks

Experience

Technology & Product Pre-Intern – TPOBridge (Remote)

Mar 2026 – Present

- Performed structured product testing and requirement analysis to identify functional and usability issues in the TPOBridge platform.
- Designed test cases covering multiple user flows and edge cases to improve validation coverage and system reliability.
- Documented and reported issues with structured feedback, enabling faster debugging and improved product stability.

Artificial Intelligence Intern – Infosys Springboard (Virtual)

Aug 2026

- Selected for Infosys Springboard AI Internship under Pragati: Path to Future Cohort 8 after clearing prerequisite AI learning pathways and technical assessments.
- Gained hands-on exposure to Generative AI, NLP pipelines, prompt engineering, and GPT-based model workflows through structured training and practical exercises.

Projects

Full Stack Developer – CiviQ (Citizen Issue Management Platform) (Live — GitHub)

Feb 2026 – Present

- Built and deployed a multi-tenant MERN-based complaint management system for Residents, Technicians, and Administrators.
- Developed 31 REST APIs with JWT authentication and role-based access control for secure system operations.
- Designed a weighted technician assignment algorithm to automate complaint routing and improve allocation efficiency.

Full Stack Developer – Nxt2Campus (MHT-CET College Predictor) (Live — GitHub)

Jun 2025 – Aug 2025

- Developed a full-stack admission guidance platform using Node.js, Express.js, and MongoDB.
- Implemented percentile and cutoff-based prediction model using historical MHT-CET admission data.
- Built REST APIs and responsive UI to simplify college selection for students.

Frontend Developer – EquiTrack (Real-Time Stock Tracker) (Live — GitHub)

Jul 2025 – Aug 2025

- Built a real-time stock tracking web application using JavaScript and Tailwind CSS.
- Integrated live stock market APIs with Chart.js for financial data visualization.
- Implemented stock search, key metrics dashboard, and automatic data refresh functionality.

Achievements & Hackathons

- Shortlisted in the college internal round of **Smart India Hackathon 2025** for the K-INDS metro planning solution.
- Co-developed **SCRIBE AML**, an AI-powered Suspicious Activity Report generator, at **Barclays Hack-O-Hire 2026**.
- Developed **ManoSakha**, an AI-powered mental health assistance platform, at **TechFiesta 2026**.
- Recognized as a Top-Tier Performer in **Hack2Skill Prompt Wars Challenge 3** for developing **EcoTrace**, a carbon footprint awareness platform.
- Secured **1st Rank** at the Taluka level in the HSC Board Examination.

Certifications

- NPTEL – Enhancing Soft Skills and Personality** — Elite + Gold — Score: 91% — IIT Kanpur
- Principles of Generative AI** – Infosys Springboard
- Cloud Computing using Microsoft Azure** – Infosys Springboard
