CodeChef — LeetCode — GeeksforGeeks

Professional Summary

Second-year B.Tech Information Technology student and aspiring Software Developer with hands-on experience in full-stack web development. Skilled in Java, JavaScript, Node.js, Express.js, MongoDB, and REST API development. Strong foundation in data structures, problem-solving, and collaborative software development through academic projects and hackathons.

Technical Skills

Programming Languages: C, C++, Java, JavaScript, SQL

Web Development: HTML5, CSS3, JavaScript (ES6), React.js, Node.js, Express.js

Databases: MongoDB, MySQL

Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, RESTful APIs

Tools & Technologies: Git, GitHub, VS Code, API Integration

Operating Systems: Windows, Linux

Soft Skills: Problem Solving, Team Collaboration, Communication, Analytical Thinking

Experience

Full Stack Developer – CiviQ (Community Issue Management System)(Project Link) Feb 2026 – Present

- Built and deployed an end-to-end issue management platform using Node.js, Express, MongoDB, and React, enabling real-time complaint tracking and improving reporting efficiency.
- Designed scalable backend services and REST APIs with JWT-based authentication, enabling secure multi-user access and seamless data flow.
- Developed intelligent complaint classification and auto-assignment system, optimizing technician allocation and reducing manual intervention.
- Designed a responsive, user-centric dashboard with TypeScript, Zustand, and React Query for real-time updates, notifications, and efficient workflow management.
- Integrated email notifications, reminders, and feedback system to enhance user engagement and service quality monitoring.

Full Stack Developer – Nxt2Campus (MHT-CET College Predictor)(Project Link) June 2025 – Aug 2025

- Developed a full-stack college admission guidance platform using Node.js, Express.js, and MongoDB, serving 500+ data records.
- Implemented cutoff-based prediction logic to recommend eligible colleges for students.
- Designed RESTful APIs to process and manage Excel-based college and cutoff data.
- Built a responsive user interface and collaborated using GitHub version control.

Frontend Developer – EquiTrack (Real-Time Stock Tracker)(Project Link) July 2025 – Aug 2025

- Built a real-time stock tracking web application using HTML, Tailwind CSS, and JavaScript.
- Integrated live stock market APIs to fetch and auto-refresh financial data with updates every 60 seconds.
- Implemented stock search functionality and displayed key financial metrics for analysis.

Education

B.Tech in Information Technology

Pune Institute of Computer Technology

2024 – 2028

CGPA: 9.37

Higher Secondary Education (HSC)

MRMV Junior College of Science, Manmad

2024

Percentage: 95.00%

Achievements

- Selected for the internal round of Smart India Hackathon 2025; participated in TechFiesta'26 and Hack-o-Hire'26, contributing to problem analysis, solution design, teamwork, and presentations.
- Secured **1st Rank** at the Taluka Level in the HSC Examination.

Certifications

- **CodeChef** – Completed all 500+ difficulty practice problems. (Certificate)
- **TechA Cloud Computing using Microsoft Azure Certification** – Infosys Springboard (Certificate)
- **Principles of Generative AI Certification** – Infosys Springboard (Certificate)
- **Artificial Intelligence Primer Certification** – Infosys Springboard (Certificate)
